Notes

* Additionally, the CPA received an application for the ROMP area on 8th August 2014. This is not valid requiring an EIA (EIA screening opinion issued to SITA on 21 August 2014). It is envisaged this more comprehensive application will replace the above ROMP application (WA11/1174) currently in abeyance.

* The two non material amendment applications for areas A & C concerning post settlement contours have been approved by delegation, and now allow for the progression of the above Area A & C applications (WA/2013/1020 and WA/2013/1101) which were held pending these two non material applications.

* Delays between the receipt and validation dates may reflect that the application as received is deficient in some aspect.
