Part 1 – ITEMS FOR DECISION

C 022/07 TOWN MAYOR'S ANNOUNCEMENTS

The Town Mayor announced that she would not go through the full list of the events that she had attended. However the Mayor did mention that she had attended the Graduation Ceremony at Guildford Cathedral on 28th June for the University of the Creative Arts and it was a great joy.

The Town Mayor went on to say that she hoped that over the next four years party politics could be eliminated from the Council Chamber. There was an ideal opportunity with eighteen councillors who were fresh and full of ideas to banish party politics from the chamber.

C 023/07 FARNHAM TOWN COUNCIL AIMS & OBJECTIVES

Members received a report on the Draft Aims and Objectives for Farnham Town Council following a workshop that was held for members with the aim of establishing a way forward for the Town Council over the next four years.

ITEM 2 APPENDIX A

The results of the Members' workshop were collated to form a draft list of Aims and Objectives. Members considered the list of Aims and Objectives and asked that officers include the word "creative".

Members noted that the Town Council did not have any statutory legal powers or duties with regard to traffic movement and services. However the Town Council could still lobby for improvements to the traffic services to address congestion.

Members agreed to include traffic issues within the Aims and Objectives.

Members also requested that the promotion sports and recreation facilities be included in the aims and objectives, however it was agreed that this was already covered under the aim to promote healthy living.

The Aims and Objectives are attached to record minutes.

Members agreed that officers would prepare a 4 year work plan for the Town Council in partnership with the Corporate Development/Audit Group.

RESOLVED:

- 1. That Farnham Town Council's amended Aims and Objectives be received and approved.**
- 2. That delegation be given to officers to prepare a work plan in partnership with the Corporate Development/Audit Group.**

C 024/07 ORGANISATION STRUCTURE – COMMITTEES – STAFF

Members received a report on the proposed Organisational Re-structure for Farnham Town Council.

Members noted that previously the Council operated using three committees (Policy & Resources, Public Services and Environmental Services) and a Plans Panel.

Members were requested to consider a change of approach where Full Council would be the only regular meeting of the Council. It would allow all members of the Council the opportunity to discuss and contribute to policy, give direction to the Council and its officers and provide a transparent process which would be open to scrutiny and involve all members.

Members noted that to operate effectively Council would need to meet every six to seven weeks.

The Council would be responsible for all decisions that were previously made by the committees.

ITEM 2
APPENDIX A

Members agreed that the Council would operate with one meeting every six to seven weeks but that the situation would be reviewed in March 2008.

In order to improve the efficiency of the Council members noted that it would be practical to establish a number of small members groups to work with officers to develop reports and undertake reviews prior to consideration and decision by Council. The groups would meet as and when required.

Members agreed to establish the following four groups:

1. Corporate and Development/Audit Group (consisting of five members including the Mayor)
2. Staffing Group (consisting of four members including the Mayor)
3. Cemeteries Appeals Group (consisting of four members including the Mayor)
4. Planning Consultative Group (already established and to be reviewed at a later date)

Members agreed that the Terms of Reference for these groups would be agreed by the Town Mayor, Deputy Town Mayor and the Town Clerk.

Members noted that in addition it would be necessary to review the current organisational structure to reflect the needs of the Council. The review would be undertaken by the Town Clerk with the assistance of the Corporate Development/Audit Group for consideration by Council.

RESOLVED:

1. **That in the municipal year 2007/2008 the only decision making body will be Full Council and there will be no committees. The decision will be reviewed in March 2008.**
2. **A Corporate Development/Audit Group, Staffing Group and Cemeteries Appeals Group be established with Terms of Reference to be agreed by the Town Mayor, Deputy Town Mayor and Town Clerk.**
3. **The membership of the above groups be as follows:

4. **To delegate to the Town Clerk with the assistance of the Corporate Development/Audit Group a review of the Council's organisational structure.**

C 025/07 STANDING ORDERS

Members received a report on a review of Standing Orders which was undertaken by officers, taking into account the earlier reports of the Council.

The areas of alterations were as follows:

Paragraphs 4a and 4b

This now allows for the Town Clerk to regulate the start of a meeting if the mayor/deputy mayor or chairman is not at the meeting, until a substitute is appointed for that meeting.

Paragraph 21

This sets out the terms for the Council to receive petitions.

Paragraph 42 (introduction)

This now gives the Council the *discretion* to appoint committees.

Paragraph 42(e), (f) (g)

Paragraph 82

Members discussed the changes to the Standing Orders including the breach of confidentiality and the standing orders for Committees.

Members agreed that any breach of confidentiality was serious enough to warrant being reported to the Standards Board.

Members also agreed that the Standing Orders for committees would remain as the Council may decide to reinstate committees as a later date.

RESOLVED: That the Council's amended Standing Orders (attached to record minutes) be agreed and accepted.

C 026/07 DELEGATED AUTHORITY

Members were requested to prioritise a list of projects for implementation during 2007/2008 and to consider if additional funding should be released from reserves to complete specific projects.

Members debated a project at Sandy Hill which required a £10,000 contribution towards the cost of a Multi Use Games Area.

The project is managed by Waverley Borough Council and funding has been secured from:

Waverley Borough Council	£20,000

TOTAL	£35,000

Members discussed the list of proposed projects and agreed that the following would be funded.

RESOLVED: That a working group be created to progress the Bandstand/Performance Area. Membership of the group will be, (Mrs) P Frost, D Attfield and C Storey.

C 029/07 PRESERVATION AND ARCHIVING OF CEMETERY RECORDS

Members received a report on the preservation and archiving of the Cemetery Records.

Members were asked to approve the following actions:

1. The scanning of the cemeteries registers into PDF format
2. The scanning and digital and physical restoration of the cemetery maps
3. The historic data inputting of the cemetery registers on to the Council's cemeteries management system
4. The storage of the original cemeteries records with the Surrey History Centre
5. The release of funding for the project from Council reserves

Members were reminded that the Council is responsible for the administration of four cemeteries in Farnham: Green Lane, Hale, Badshot Lea and West Street.

The Council has a legal duty to maintain the records of all interments, burial plots and memorials within its cemeteries. The current manual record system covers a period of over 150 years and consists of approximately 43 large handwritten books and an equivalent number of hand drawn maps. The books contain approximately 31,600 entries.

The use of the cemetery registers and books continues to increase as interest in local family becomes more popular. This demand coupled with the Council's own administration procedures subjects the records to continuous wear and tear. The maps which are also in regular use are in a particularly fragile condition.

Members noted that the increase in demand for local family history records has put an additional burden on the Council staff to respond to requests and provide photocopies of maps.

The records are currently stored in the Council's general office in cabinets that are not fire proof; any source of heat would damage the valuable information beyond recovery.

**ITEM 2
APPENDIX A**

Members agreed that the situation was not acceptable for such valuable and irreplaceable documents and noted that the manual maintenance of the records is time consuming and did not utilise the Council's current computer systems to their maximum capacity.

RESOLVED:

- a) that the following actions and costs should be carried out on the cemetery records.

Undertake remedial repairs to the maps	£2,325
Scanning of registers	£1,905
Input back data onto the Computer System	£5,600
TOTAL COST	£9,830

- b) The funding for the project of £9,830 be identified from reserves.
c) The original cemeteries records be sent to the Surrey History Centre for archiving and storage.

C 030/07 ANNUAL ACCOUNTS

Members received the Annual Return for 31st March, 2007.

RESOLVED: That the Annual Return for 31st March, 2007 be approved.

C 031/07 EXCLUSION OF THE PUBLIC AND PRESS

RESOLVED: That in view of the confidential nature of business to be transacted at Agenda Item 18, namely a report on Chapels of Rest, West Street and Green Lane and discussion of contractual issues it was advisable in the public interest that the public and press be temporarily excluded and they were instructed to withdraw at Item 18.

FARNHAM TOWN COUNCIL

East Street Planning Application

06.01 **Purpose**

To consider planning applications from Crest Nicholson Developments Limited and Sainsbury's Supermarkets Limited for land at East Street, Farnham.

06.02 **Aim**

To make observations of 'Material Planning Concern' on planning applications: WA 07/1055 – Outline planning application for a phased, mixed use redevelopment comprising: 10,342 sq m of retail, restaurant and café-bar accommodation (use Classes A1/A3/A4); 294 residential units (Class C3); an 8-screen cinema (Class D2); basement car park for 697 cars; together with associated highway and access works; provision of infrastructure and landscaping; replacement facility for the existing 'Gostrey Centre'; following demolition and clearance of site. (Phase 1a matter of landscaping reserved; phase 1b matters of appearance and landscaping reserved).

WA 07/1056 – Change of use of Brightwell House from theatre (sui-generis) to Class A3/A4 café-bar/restaurant; removal of exiting extensions; construction of replacement extensions and general refurbishment.

06.03 **Supporting Information**

Current Situation

Officers have reviewed the previous observations of the Council which are of Material Planning Consideration and have identified the following observations for consideration by Council for submission to the Planning Authority.

General Statement

Farnham Town Council continues to object to the Master Plan since the proposals put before it do not in its view meet the design principles set out in Section 10.11 Design and Access Statement of the Framework Document which states "architecturally, the character of the buildings will complement the town of Farnham."

It is Farnham Town Council's opinion that the proposals in relation to the architectural character, scale and mass and appropriateness to the quality of Farnham town centre amounts to overdevelopment.

Farnham Town Council therefore believes that the overall scale of the whole development proposals in comparison to the existing Farnham town centre is

overdevelopment.

General Design: Mass and Design

Farnham Town Council continues to object to the amount of three and four storey accommodation and flat roofed buildings within the scheme and every effort should be made to ensure the scheme is more in keeping with the historic character of the town.

Farnham Town Council is concerned at the unbroken line of the frontages and the large size of the footprint of the buildings which do not reflect the historic character of the town.

Frontages and Pedestrian Access

South Street

- (a) The proposed architectural improvements to the Sainsbury's store in its current location and the attempt to make the South Street frontage of the development more attractive are welcomed. However the permeability of the scheme needs to be reviewed as the Sainsbury's Store and in particular its service area are now remaining in South Street.
- (b) The permeability of the scheme in terms of improving pedestrian access to and from the scheme and the rest of the Town Centre still requires careful consideration; it is imperative that all pedestrian routes are inviting, safe and attractive.
- (c) Failure to address this will result in the scheme not being properly integrated with the existing town centre to the detriment of the overall vitality and viability of the town.
- (d) All pedestrian access to the site should be 'Secured by Design' and meet the highest community safety standards.

East Street

- (a) The proposed improvements to the frontage of East Street are welcomed. However, Farnham Town Council believes that further improvements could be made to this proposal to ensure that the frontages in East Street are in keeping with the historic architectural character of Farnham.
- (b) Farnham Town Council does not want to see a replication of the Woolmead style of development in the new East Street redevelopment.

Access by Public Transport

Farnham Town Council strongly believes that access to and from the scheme by

ITEM 6 APPENDIX B

bus should be made as easy as possible and supports the proposed 'bus only' use for the designated part of East Street.

Number and Type of Residential Units

Farnham Town Council would like to see a substantial reduction in the number of residential units.

Farnham Town Council notes the intention to apportion the affordable housing between buildings and believes that the affordable housing should be both affordable to rent and to buy and should be distributed throughout the development to ensure a proper mixture of tenure types within the scheme.

Farnham Town Council believes that play facilities for children should also be part of the scheme.

Parking

Farnham Town Council believes that the technical design of any underground car park must ensure that the facility can be operated, maintained and managed to a high standard without nuisance to residents or risk of closure throughout its design life. The adoption of a 'Secured by Design' approach is vital to secure public confidence when using the car park and addresses legitimate community safety issues. The ongoing management of the car park must be sufficiently robust to ensure all users behave responsibly and with due thought and consideration to other users and residents at all times.

Town Square

Farnham Town Council reiterates its belief that the Town Square should be sufficiently large to accommodate a diversity of civic and public uses (including public events such as the Christmas Switch On, markets and displays of arts and crafts) and designed with appropriate infrastructure (such as electrical power points, space for portable seating/stages etc). It is vital that the Town Square and the surrounding open space are designed to allow all generations of the community to enjoy and benefit from the facility.

The town square should be in keeping and reflect the historic character of the town of Farnham both by design and the use of materials, such as stones and paving, that are in keeping with those already used within the historic architecture of Farnham.

Construction Issues

Any construction works that take place at East Street must have minimal impact on the rest of the town in terms of trade and travel to and from the centre of Farnham. Farnham Town Council welcomes the proposals for a temporary access road/bridge from the A31 Bypass to transport the materials to and from the site

ITEM 6 APPENDIX B

because Farnham Town Council believes that failure to adopt this strategy will cause intolerable conditions on the already overstrained highways network in Farnham town centre.

Traffic Impact

- a) Farnham Town Council seeks assurance that the developers will take account of the current studies and reports on traffic in Farnham and surrounding areas
- b) The impact of the proposed scheme must not worsen the traffic situation in the town. Agreements and funding should be in place to deal with the impact of traffic from the development on other parts of the town.
- c) The traffic generated by the cinema users and other traffic movements generated by the scheme require full and proper analysis to the satisfaction of the Highways Authority.

Other comments

Green space down to the river should be encouraged and is welcomed.

Farnham Town Council welcomes the proposals from Crest Nicholson in terms of sustainable energy.

Farnham Town Council believes that an integrated communal recycling and waste disposal scheme should be available for all residential units and for it to be unobtrusive.

Laundry facilities should be unobtrusive and controlled within the management of the residential buildings.

Farnham Town Council welcomes the proposals to recycle and reduce the amount of water that the site uses.

Farnham Town Council suggests that a review is taken of the utilities infrastructure which may not be able to cope with the number of residential units.

In light of recent years' weather conditions the developers should consider the implications of the development close to the flood plain.

Farnham Town Council regrets the loss of trees from the site and would encourage the retention of mature trees wherever possible on the site.

Brightwell House

Farnham Town council welcomes the general concept of the retention of Brightwell House.

Gostrey Centre

Farnham Town Council welcomes the new build Gostrey/Community Centre.

Cinema

Farnham Town Council welcomes the inclusion of the cinema in the scheme. However, Farnham Town Council questions the need for a cinema of the proposed capacity in Farnham. Farnham Town Council therefore questions the need for a building of this size based on its concerns regarding the capacity and the subsequent impact of this proposed building on the overall development.

Shopmobility

Farnham Town Council requests that a review be undertaken of the Shopmobility scheme proposals. We question whether this is the correct scheme for the development in light of current thinking.

Community Safety

Consultation should be sought with the local police to ensure that community safety is paramount within the scheme.

Community Cohesion

Farnham Town Council would encourage community cohesion both within the development itself and with the rest of the town.

06.04 **Legal & Policy Implications**

Members are referred to Farnham Town Council's guidance on Planning - Guidance for Farnham Town Councillors in respect of Planning Application Notifications.

Members are reminded that the legal responsibility for planning decisions lies entirely with the Planning Authority, Waverley borough Council.

It is therefore the responsibility of Waverley Borough Council to ensure that all the relevant international, national and local policies are addressed when considering a planning application.

Farnham Town Council has **no statutory duties or powers** with regard to planning.

06.05 **Financial Implications**

There are no financial implications.

06.06 **Recommendation**

That the Councils observations on Planning Applications WA 07/1055 and WA 07/1056 be submitted to the planning authority, Waverley Borough Council.

Town Clerk
Farnham Town Council
Farnham

Dear *Roland*

Very many thanks for the support given to us by Farnham Town Council. Your sponsorship of the safety facilities, other infra structure and entertainment was most appreciated. As you know the weather on the day was far from perfect. However we had only one Procession Entry cancellation due to the weather and we also had a wide range of stalls and some superb entertainment in Castle Street.

We had some fun counting the Procession collection as it was so wet we had to use several towels and two hair dryers before we could bag it up. The amount collected was over £2300 which was down only £100 on 2006. This amount has been returned to the Charities, Youth Groups and Schools that took part in the Procession.

Despite the weather we believe the whole day was a great success and we shall shortly be looking to next year. The date is already set for 28th June 2008.

Farnham Lions and the Hedgehogs both raise funds to help local charities and individuals in need. On a very wet Saturday, with your help, we also gave Farnham residents and visitors to the town yet another thoroughly enjoyable Carnival Day to remember.

Many thanks again for your support

Yours sincerely

Alan Hunt
