SANG available to support delivery of housing	The Neighbourhood Plan allocates SANG sites which provide sufficient capacity for this development.
Summary of Assessment (Site suitability/ availability and achievability for allocation)	The site is located at the eastern entrance to the town between a residential estate and a farmstead. The site abuts a substantial residential development along its eastern boundary which currently forms an abrupt urban edge. The existing residential development forms an abrupt edge with the countryside and a sensitive well landscaped development gives the opportunity to enhance this relationship through sensitively designed landscape and varied density allowing an improved transition to the countryside edge. The site is close to a bus stop, Neighbourhood Centre and schools. The site is confirmed as available by the landowner and a residential scheme is likely to be viable on this site.
